Prevention better than Cure.

For the Prevention and Cure of Bilious and Malignant Freez, is recommercial HAHN'S ANTI-BILLOUS PILLS. Prepared (only) by H. L.P.B., 56 Maiden Lane, New York.

Lene, New York.

THIS Medicine has, for tra years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilkinington, Charleston and Savannali. The testimony of a number of persons in each of the above places has been addeced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances:

Facts of this conclusive nature, speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion could do.

It is not indeed presimptuously proposed

could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

in cases esteemed desperate, and beyond the power of common remedies.

are operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to sarry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to temore a cold, if taken on its first appearance. They are celebrated for removing hapitual costiveness—ickness at the stomach and head ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacions in preventing and curing disorders attendant on long transmitted.

one in preventing and curing disorders at-tendant on long voyages, and should be pro-cured, and carefully preserved for use by

Certificate of Mr. William Devenney.

During the last nine years, I have been in the habit of asing Hahu's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have renealed the colds. colds, head-aches or costiveness have rendered medicine ucessary; in these cases a single dose has uniforally removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c. and I have the proceeded, in re-have invariably succeeded, in re-above complaints. Yours, &c. above complaints. Wm. DEVENNEY,

HAMILTON'S

Calchrated Worm Destroying Lozenges,
Which there is reason to believe, have,
within ten years past, cured inward of two
hundred thousand persons of both sexes, of
every age, and in every situation, of various
dangerous complaints arising from worms,
and from obstructions or foulness in the sto-

mach and bowels.

This medicine bears no analogy whatever so others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse mach and bowels. dy, but will, without pain or griping, cleanse the stomson and powels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilipus complaints, and are the safest and mildest purgative that can be used

safest and mildest purgative that can be used on any occasion:

A dose of this medicine given occasionally during the warm season, will effectually prevent the "vomiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a gicat number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in such class.

Children generally take this medicine with eagerness; having a pleasing apportance, and an agreeable taste.

Cases of Cures, selected from thousands, the authenticity of which any person may as-egrain, either by letter or parsonal applica-tion; not being performed in Europe, nobo-dy knows where—but at home.

TAPE—WORM.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartfird, ten miles from Baltimore, began about 12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most 1 sorid sensations by its withing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprival him of his necessary sleep, and caused such dreadful apprehensions as eannot be sescribed but by one in a similar stuation; it is appetite declined rapidly, and with that I we strength, so that he was unable to attend

to any business s when he heard of some excellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yalls (now in possession of H. Lee); but a renewal of his pains soon convinced him that this monstress reptite had recovered its first vigour. Application was made for more of the medicine, with advice, from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be six or eight yards mere. A few weeks have since elaysed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large duses as Mr. Fuller will testify. Their peculiar mildiess is abundantly evident in the following cures of infants.

Letter from Mr. Henry 'Ackerman, brick-layer, in Megazine-street, near Broadway, New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamiston's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed; and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on atrial of them, as my last resource. The first cracuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like akins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time resturing a good state of health.

Dr. Hamilten's Grand Restorative,
Which the inventor confidently recommends as an invaluable medicine for the speedy relief, and permanent cure of various complaints which result from dissipated pleasures, juvenile indiscretions, residence in climates unflavorable to the constitution, the immoderate use of tea, frequent intoxication, or any destructive intemperance, the unskilfull or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad layings in, &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of nervous disorders, consumptions, lowness of spirits, loss of appetite, impurity of the blood, hystérical affections, inward weakness, violent crainps in the stomach and back, indigention, melancholy, gout in the Dr. Hamilton's Grand Restorative,

ITCH CURED

By once using Lee's Sovereign Oiatment. The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is safe) that if this ointment is used at night on points to hed it never fails to perform sale) that if this ointment is used at night on going to bed it never fails to perform a cure by the following morning, as thousands who have used it during the last ten years can testify. The peculiar excellencies of this infallible remedy for the itch, over every other, see the certainty of the cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant; and its being not only free from any offensive smell, but equally agreeable with the pleasantest pomatum. In submitting the above scheme to the public, the Managers will not attempt any eulogium on the importance or necessity of the object in view. They believe that, at this time, not a doubt exists in the mind of any well informed person, of the efficacy of the King Pock as a safe and certain preventative of the Small Pox. The difficulty, and it might be added the impossibility, of preserving this remedy without the aid of an Institution, (such as is intended to be established and supported by the profits arising from this Lottery) is also well known. But it is proper to observe, that this Institution not only contemplates to preserve the genuine Vaccine Matter for the use of the citizens of this state, but also to give it, at all times, free of every expence, (with directions when required) to any of them who may have occasion to use it. To aid them a accomplishing objects such as these, the Managers feel confident of the liberal and prompt support of the public.
